DRAFT BUSINESS PROGRAM

6-7 OCTOBER

09:00 - 18:00 Opening hours

10:00 - 17:00 Business program

MAIN PROGRAM

Conference room, 1 floor

Panel discussion. Current state and legislation reforms in the field of water resources management

Invited for participation representatives of:

- specialized ministries of Ukraine
- relevant committees of the Verkhovna Rada of Ukraine
- National Commission for State Regulation of Energy and Public Utilities
- State Environmental Inspectorate of Ukraine
- State Service of Ukraine for Food Safety and Consumer Protection
- State Water Resources Agency of Ukraine
- industrial enterprises (Holdings)
- regional state administrations

Session 1. Information technologies, equipment and systems for accounting, monitoring, automation and dispatching

Monitoring water supply problems of the country using space means

Sergiy Yanchevskiy, Deputy Head of Information and Analytical Center, **National Space Facilities Control And Test Center**

Topic to be announced

Olexandr Khodyrev, Director, **ECM Ukraine**

Topic & Speaker to be announced

Ecoinstrument-Kiev, Ukraine

Session 2. Modern equipment and machinery for pipelines cleaning and engineering networks of water supply and disposal

Topic to be announced

Yuriy Basyuk, Director of Specbudmash, **Budshlyakhmash, Ukraine**

Reliable protection of concrete from aggressive effects of biogenic sulfate corrosion. OmbranCPS

Oleh Zhuravel, Regional representative, **MC-Bauchemie Ukraine**

Flexible pressure pipelines for trenchless pipe rehabilitation DN 150-500

Robert Henich, Sales Manager CIS & Baltic, **Raedlinger Primus Line, Germany**

Trenchless rehabilitation of pipelines with flexible polymer sleeve as an alternative to traditional methods

Igor Cherneshenko, Director, **Orni Group, Ukraine**

Session 3. Modern equipment and technologies for sewage treatment

Topic to be announced

Grega Verk, Project Manager Environmental Engineering, **RIKO, Slovenia**

Topic to be announced

Yaroslav Prilypko, Director, **Aquantis, Ukraine**

Topic & Speaker to be announced

SNF / Imvend Chemical, France / Ukraine

Topic to be announced

Oleksandr Mazayev, Sales Manager, **Alfa Laval, Ukraine**

Topic to be announced

Alexander Smirnov, Deputy Head of Technological Department, **Ecopolymer, Ukraine**

Separators and drainage units HAURATON (Germany) for treatment and infiltration of atmospheric waste water

Zhurylo Daria, Engineer, **Euroizol Geosynthetics, Ukraine**

Topic & Speaker to be announced

BIO-RAN, United Kingdom

Topic to be announced

Andrey Kopunec, Water treatment technical specialist CEE, **Donauchem, Hungary**

Session 4. Recycling and disposal of sediments and sludge, biogas energy

Geotubes for sludge dewatering

Larysa Dzheneviz, Head of hydraulic department, **Westhem Group, Ukraine**

Session 5. Financing and investments into Ukrainian water industry

Refinancing of projects from JSC TASCOMBANK within current international programs

Andriy Kudinov, Deputy Head of VIP Corporate Client Department (Energy Sector), **TASCOMBANK**

Financial leasing in PrivatBank, network, partners, new format

Olexandr Ivanin, Deputy Head of Development of Sectoral Products on Products of Financial Leasing Department, **PrivatBank**

IFC's Green Finance Program

Speaker to be announced, **IFC - International Finance Corporation**

Topic to be announced

Baher El-Hifnawi, Program Leader for Infrastructure and Sustainable Development in Belarus, Moldova and Ukraine, **World Bank**

INDIVIDUAL NEGOTIATIONS with financial institutions

- **PrivatBank**

Negotiations to be held by:

Olexandr Ivanin, Deputy Head of Development of Sectoral Products on Products of Financial Leasing Department

SEMINAR "Role of environmental laboratories in the reform of Ukrainian water resources monitoring"

- Changes in legislation regulating laboratory activities in the context of transition to European measurement standards
- Best available technologies and equipment for water resources monitoring. Is there a compromise between price and quality?
- Is effective cooperation between municipal authorities and business possible during building a unified environmental measurement system?
- Ensuring measurement quality and metrological control. How to avoid major mistakes?
- Economics of instrumental studies of water resources. Can a lab make money?

Invited for participation:

- heads of environmental laboratories of enterprises and water utilities, independent environmental laboratories and laboratory centers
- representatives of design organizations, suppliers of technologies and equipment for laboratories
- representatives of state and municipal environmental control services

PARALLEL EVENTS

Zone of parallel events, 1-2 floors

CONFERENCE “Industrial water”

Moderator: Vladislav Antypov, CEO, Center of Environment and New Technologies Development

Topics:

- Mechanisms of financial, legislative and public regulation of Ukrainian water pollution by industrial enterprises
- International and domestic equipment and technologies for monitoring, water & waste water treatment at industrial enterprises
- Technological solutions for sewage reduction and reuse of treated waste water at industrial plants (ZLD system - Zero Liquid Discharge)

Questions to be discussed:

- › Which environmental problems related to water pollution by industrial enterprises are the most relevant?
- › What technologies will allow Ukraine to comply with European directives in the field of water protection?
- › What financial mechanism of state should be to support enterprises environmental projects?
- › What legislative reforms are required in the area of the special water use permit system?
- › What should be the mechanism of state and public control over environmental compliance?

Session 1. Fuel & energy, mining & metallurgical complex

Topic to be announced

Olexandr Senik, Head of the Department of Environmental Protection, **Ferrexpo, Ukraine**

Topic & Speaker to be announced

SNF / Imvend Chemical, France / Ukraine

Session 2. Petrochemical, transportation and machine building industry

Session 3. Agriculture and food industry

Session 4. Chemical and pharmaceutical industry

Invited for participation:

Domestic and World suppliers and manufacturers of equipment, technologies, machines and services for water treatment, ZLD, monitoring and sewage treatment at industrial enterprises, chief engineers, ecologists, specialists in water supply, sewerage and maintenance of WWTP at industrial enterprises, representatives of the profile Ministries, committees of the Verkhovna Rada of Ukraine, City and Regional Departments of Ecology, Public Organizations, united territorial communities, Bodies of State Environmental Supervision (Control), Mass Media

CONFERENCE “Modern aspects of design and construction of Ukrainian water facilities”

- Actual legislation changes in the field of regulation of water facilities construction
- Modern design and construction technologies
- Procurement and project features with the involvement of international financial institutions
- Certification and advanced training of design engineers - the necessary conditions for compliance of hydraulic facilities to world standards

Topic to be announced

Olena Kotsar, Managing Partner, **USEC «Potential-4», Ukraine**

Topic to be announced

Ruslan Svintsitskyi, Director of Marketing and Sales, Member of the Board, **UTEM-ENGINEERING, Ukraine**

Invited for participation:

- design, engineering, construction organizations, general contractors, design and production services of water utilities and industrial enterprises, suppliers of equipment and technologies, scientific and educational institutions, control services, municipal and state authorities

SEMINAR “Basin Councils’ priorities for Ukrainian water sector development”

Topic “Ukrainian water sector development program for the period of 2020-2021”

- Water regulation reform. Water basin management plan as a factor for maintaining water bodies in good condition
- The modern water monitoring system is a necessary basis for implementation of EU environmental directives
- Energy efficiency is a necessary condition for Ukraine’s water sector existence in modern realities

Invited for presentations and discussions:

representatives of relevant Committees of the Verkhovna Rada of Ukraine, Ministries, State Environmental Inspectorate of Ukraine, the Ukrainian Hydrometeorological Center, regional environmental monitoring centers (Kyiv, Dnipro, Mariupol, Lviv, Odessa, Kharkiv), public eco-monitoring network and scientific community, State Agency on Energy Efficiency and Energy Saving of Ukraine, suppliers of technologies and equipment, financial institutions

Invited for participation:

Members of basin councils, representatives of regional offices of the Water Resources Agency and water utilities, basin and canal administrations, state and local authorities, research institutions, industrial enterprises, financial institutions, scientific and public organizations

OPEN SEMINARS of international and domestic suppliers of equipment and integrated solutions for water resources management**! Open Seminar - RIKO, Slovenia**

Moderator: Grega Verk, Project Manager Environmental Engineering

! Open Seminar - ECM Ukraine

Moderator: Olexandr Khodyrev, Director

! Open Seminar - Альфа Лаваль Украина

Moderator: Oleksandr Mazayev, Sales Manager

WATER RESOURCES MANAGEMENT IN UKRAINIAN REGIONS

October 7, Wednesday

SEMINAR “Water resources management in Kyiv city”

Organizer: Department of Ecology and Natural Resources, Kyiv City State Administration

Moderator: Oleksandr Savchenko, Head of Ecology and Natural Resources Department, Kyiv City State Administration

Seminar topics:

- monitoring of water resources
- the state of reservoirs of Kyiv city
- water supply and drainage
- operation of networks and reservoirs of Kyiv city
- control of compliance with environmental legislation

Preliminary invited for discussion representatives of:

- Kyiv City State Administration
- Standing Committee on Environmental Policy of Kyiv City Council
- Housing and Communal Infrastructure Department of Kyiv City State Administration
- Kyivvodokanal
- ME “Pleso”
- Ukrainian Hydrometeorological Center
- Main Department of the State Service of Ukraine for Food Safety and Consumer Protection in Kyiv
- Specialized Water Utility “Kyivvodfond”

Invited for participation:

specialists of water utilities and enterprises, South-Western Railway, Kyiv River Port, Kyiv Hydroelectric Power Plant, representatives of industrial enterprises of fuel and energy complex, chemical, petrochemical, pharmaceutical and food industries

SEMINAR “Ways to improve the state of water resources in Dnipropetrovsk region”

Organizer: Dnipropetrovsk Regional Council

Moderator: Olexiy Angurets, Deputy Chairman of the Regional Council for the Executive Office - Head of the Ecology, Energy Efficiency and Green Economy of Executive Office

Seminar topics:

- Water resources of the region. Certification of water bodies, water supply sources and disposal facilities
- Monitoring, restoration, operation, safety
- Highly mineralized mine waters of Kryvbass (Kryvorizkyi Iron Ore Basin). Search for technological solutions
- Municipal water supply and sewerage. Investment attraction
- Industrial water supply. Pollution reduction and environmental pollution

Invited for presentations and discussions:

- Ecology Department of Dnipropetrovsk Regional State Administration
- Basin Department of Water Resources of the Lower Dnipro River
- Regional office of water resources in Dnipropetrovsk region
- Dniprovodokanal
- DTEK Pavlogradvugillya

Waste Water Management 2020

6-7 October
Kyiv, Ukraine, ACCO International

- Dneprovsk Metallurgical Plant (Kamianske)
- Ukrhydroenergo
- National Space Facilities Control And Test Center
- Aulski vodovid

Invited for participation:

specialists of water utilities and enterprises, representatives of industrial enterprises of fuel and energy complex, chemical, petrochemical, pharmaceutical and food industries, public associations, scientists

Simultaneous translation will be provided during working sessions: Ukrainian / English / Russian languages

CO-LOCATED EVENTS:

Waste Water Management will be held at the same time with co-located exhibitions:

construction & operation of hydraulic structures & water bodies

Hydro Engineering Expo - hydro-expo.com

municipal & industrial waste collection & recycling

Waste Management - wm-expo.com

Attending all events is free of charge, registration is required.

We invite you to join industry professionals, learn new trends of the market and take a direct part in its formation.

Participation in the exhibition allows presenting products and services to professionals in the field of sewage treatment in Ukraine, which make key decisions at the national and regional levels.

INVITED FOR PARTICIPATION IN THE EXHIBITIONS:

- Suppliers of equipment, machinery and integrated solutions for sewage treatment, construction and operation of hydraulic structures and water bodies
- international and Ukrainian water utilities ("vodokanals")
- industrial enterprises: Hydropower, Mining & metallurgical and fuel & energy sectors, petrochemicals, chemistry & pharmaceutical production, agriculture, food industries, animal husbandry, fish farms
- transport industry: air, auto, water and railway institutions
- construction, design, engineering, EPCC contractors, road building organizations
- consulting companies and law firms
- basin councils
- environmental laboratories
- ministries, committees of the Verkhovna Rada, state supervision (control) bodies
- regional and municipal authorities, territorial communities
- banks, investment companies, financial institutions
- diplomatic missions
- scientific and educational institutions, public organizations, mass media

ORGANIZER

Business-Forum Ltd specializes in organisation and conducting of international and regional conferences and exhibitions since 2003.

Industries we cover:

- metallurgy,
- mining,
- transportation and logistics,
- chemical, ecology.
